## Facts about OMNI-PAC and the products

- For more than 50 years one of Europe's leading manufacturers of molded fibre products.
- Our molded fibre products are manufactured from wood pulp and / or waste paper.
- Variety of 9 different molded fibre containers in different sizes that can perfectly be employed as collecting dishes and for arranging application sets in the health industry.
- You can rely on the quality of our products – the complete quality control enables us to supervise all production steps systematically and continuously up to the origin of the raw material.
- Certificates: ISO 9001, BRC/IOP

## Key attributes of Medibowl® and Meditainer®

In addition to the economical advantages of our products there are numerous ecological assets which complete a perfect solution:

- Renewable raw material
- Stable and hygienic
- Can be sterilised
- Reduces the risk of infection by singular use
- Time and cost intensive cleaning is avoided
- Easy and efficient handling
